30,000 FRESH GERMAN TROOPS TO RENEW ATTACK ON LIEGE BRITISH-GERMAN NAVAL FIGHT REPORTED IN NORTH SEA

British Battleship Squadron Led by Admiral Callaghan's Flagship Iron Duke

8000 REPORTED TO HAVE FALLEN BEFORE BELGIAN MARKSMEN

Unexpectedly Stubborn Defense of Little Kingdom Checks Momentarily Advance Into France—King Albert to Take Field and Command Defenders.

By ASSOCIATED PRESS

BRUSSELS, Belgium, via London, Aug. 6.—The German Crown Prince is expected hourly to arrive before Liege with 30,000 fresh troops to support the 40,000 men repulsed by the Belgians.

It is officially announced here that as soon as pressing matters of state are disposed of, King Albert of the Belgians will himself take the field and command his army opposing the German advance.

A force of 20,000 Germans passed through Manhay, Luxemburg, yesterday, in the direction of Aywaille, Belgium, which is about 40 miles south of Liege.

Two disguised German officers arrested today at Ostend had in their possession extensive military notes and plans of great value. They are to be shot.

It is thought here today that the Germans would have to begin a regular siege of Liege, and it was pointed out that their howitzers were too small to be efficacious against the heavy artillery of the Belgian forts.

Military authorities were of the opinion that if the Belgians could hold out at Liege, one of the decisive battles of the war might be fought there soon.

BRUSSELS (Via London), Aug. 6.—The Gazette, official paper, publishes today what it says are the facts so far as known regarding the repulse of the German forces by the Belgians in the Liege district yesterday. The German losses were estimated at 8000 men, while the Belgians suffered far less.

The alleged rout of the German Seventh Army Corps is not confirmed in its entirety, however, says the Gazette, which adds:

"These are the facts: The Belgian Eleventh Brigade, after successfully resisting the German attack, pursued the fleeing Prussians with such energy that the General commanding the Belgians was obliged to order our troops to turn back, as they were getting outside the range of the guns of the Liege forts. The enthusiasm of our troops was magnificent.

"A number of wounded Germans fled to Dutch territory and this gave rise to the belief that the enemy had been completely routed. They suffered, however, considerable losses, which are estimated at 8000. Our losses were relatively small.

Belgians Capture Guns and Prisoners.

"At 4 o'clock in the morning, (Wednesday), the German Tenth Army Corps attacked the Chaudfontaines and Boucelles forts of the Liege train of defenses from the southeast, while their artillery bombarded the fort at Flemalle on the opposite bank of the river Meuse, five miles south of Liege. The Belgians captured seven guns and several prisoners.

"Evagne fort, which was in action all day, was unharmed. The Belgian aviators proved as good as the Germans.

A German military aviator was killed.

"Eight hundred wounded Germans are being transferred to the City of Liege, where they will be cared for."

Le Peuple asserts that in the fighting near Vise, a platoon of Prussian cavalry was almost annihilated by the enfilading fire of the Belgians from a building on the bank of the river. The Prussians, in revenge, the newspaper says, fired on civilians.

At Flemalle, near Argenteau, a Belgian force surprised a body of Prussians and killed 70 officers and 80 men. The Belgian losses were two officers killed and 10 men wounded.

Belgians Destroying the Bridges.

The German troops attempted to cross the River Meuse on a pontoon bridge, but a sharp broadside by the batteries of the fort destroyed the bridge as soon as it was completed. Later the invaders succeeded in crossing the river near Maestricht.

Belgian reconnoitering parties located three German army corps, the Tenth Army Corps at Eyden, the Seventh Army Corps, 40,000 strong, at Verviers and the Sixth Army Corps in another locality not named.

The Tenth German Army Corps operating along the northern

GERMAN WOUNDED BROUGHT ASHORE BY TORPEDO BOATS

Batteries of British Flagship Amphion Damaged—Third Torpedo Boat Flotilla Leaves Port and Immediately Engages Enemy.

MADRID, Aug. 6 (12:02 p. m.)—A dispatch from the Canary Islands says a British squadron has sunk one German cruiser, the name of which is not given and has captured another, which is being conveyed to Gibraltar.

By ASSOCIATED PRESS

LONDON, Aug. 6.—The Chronicle's correspondent at Harwich says that it is believed that an action is progressing in the North Sea.

A wireless message received by the British destroyer Virago orders her to prepare to receive 200 prisoners and wounded who are being brought in by a torpedo boat.

The Third Torpedo Boat Flotilla left the harbor yesterday morning, went into action immediately and returned last night but little damaged.

The batteries of the British flagship Amphion were slightly damaged.

Twenty-one German and six English wounded have been brought ashore and removed to the naval establishment at Shotley.

England waited today anxiously for official reports of movements of the British fleet, from which virtually nothing had been heard direct since its departure some days ago under sealed orders.

All eyes were turned toward the North Sea, whither it was generally assumed the war vessels had gone to encounter the German battleship squadrons.

The reports of the arrival of a number of wounded German and British bluejackets at Harwich, on the east coast, kept excitement at its highest point. This was regarded as evidence that at least there had been contact between vessels of the opposing navies.

The morning passed off without any more definite signs of the big battle between the powerful squadrons.

German Ultimatum to Italy

LONDON, Aug. 6.—It is reported that Germany has sent an ultimatum to Italy. The report lacks official confirmation but is regarded here as not improbable. There have been rumors that Italy, owing to the strong antagonism existing between Austrians and Italians, was likely to break away from the Triple Alliance and declare herself on the side of England.

The Telegraph says it is believed in diplomatic circles that Italy is on the eve of declaring war on Austria. Italy's alliance with Austria was never popular with Italians. The two peoples in their aims and aspirations as regards Asiatic affairs and the Balkans are notoriously irreconcilable, says the Telegraph.

An Exchange Telegraph dispatch from Paris today states that Germany has sent an ultimatum to Italy saying that unless Italy supports her allies war on her will be declared.

MRS. WILSON KEPT ALIVE BY OXYGEN; GROWING WEAKER

Senate Passes Bill to Relieve Poor Which the President's Wife Requests.

WASHINGTON, Aug. 6.—Mrs. Woodrow Wilson, the President's wife, continues to hover between life and death and is being sustained by oxygen and other artificial stimulants this afternoon. Dr. Grayson, the President's physician, said just after 3 p. m. that Mrs. Wilson had two sinking spells this morning, but rallied under stimulation. She was conscious, but growing weaker.

President Wilson canceled all engagements today, and left his wife's bedside only to sign important papers. He did not even see Cabinet members, nor hold his Thursday afternoon conference with newspaper correspondents.

Other members of the family have been constantly at Mrs. Wilson's side. Efforts have been made to reach Mr. and Mrs. Joseph B. Wilson, but they are either abroad or en route to the United States.

Illness Result of Fall.

Months of constant illness, beginning with a nervous breakdown, aggravated by a fall on the White House floor resulting in an injury to her spine, and then Bright's disease have weakened her and sapped her vitality.

Dr. Grayson gave out the following statement, at 10 a. m.: "The chief cause of Mrs. Wilson's present critical condition is a chronic kidney trouble. This has developed as one of the results of a nervous breakdown, brought on by overwork."

Besides her social interests, Mrs. Wilson had given much attention to the improvement of Washington's slums and alleys since she first came to the city. Throughout her illness she has continued her deep interest in the poor children of Washington.

Partly as a result of this interest a bill was introduced in the House for the reclamation of the districts. No later action was taken, however.

House Passes Resolution.

Last night while talking to her husband Mrs. Wilson said it would add to her happiness if the bill could be passed. The President had Secretary Tumulty investigate the matter today, and as a result the House District of Columbia Committee, headed by Representative Johnson, stated that they would report the bill favorably, and try to have it passed.

Pomeroy President Roosevelt was among those who telegraphed the President today, expressing deep sympathy over Mrs. Wilson's condition. Vice-President Marshall, Secretary Bryan, Secretary Daniels, Secretary Redfield, and other Washington officials called early to express their sympathy.

Representative Kinkaid of Nebraska presented a resolution in the House today, expressing sympathy for the President, and hope for the recovery of Mrs. Wilson. It was passed in silence.

War Renders Idle About 20,000 Longshoremen

NEW YORK, Aug. 6.—George H. Brown, business agent of the Sailors' Eastern and Gulf Longshoremen, estimated that about 20,000 longshoremen have been made idle through the war. Many seamen are idle, too, but having signed on the other side of the Atlantic for the round trip they will be cared for by the companies.

Post-Dispatch Want Ads are inexpensive, efficient and work with amazing rapidity.

LUSITANIA CALLS AID AS A HOSTILE SHIP CHASES HER

Captain of Incoming Steamer Reports Cruiser Essex Went to Liner's Aid.

NEW YORK, Aug. 6.—Further word of the big English liner Lusitania dodging German cruisers in a race for England was brought to New York today by the oil tank steamer Tonawanda, from London and Antwerp. Capt. Hart said that yesterday he heard the Lusitania in wireless communication with the British cruiser Essex, saying that a foreign cruiser was following her and asking the Essex to stand by. Later the Essex went in search of the foreigner.

For three days, said Capt. Hart, the wireless brought news of the presence of British, French and German cruisers. None was sighted, however. The French liner La Lorraine, bearing nearly 1000 reservists bound for France, was seen 70 miles east of Gibraltar.

The British steamer Kansas City, which sailed yesterday for Bristol, turned about today and made for Perth Amboy, N. J.

The captain of the Cunard liner Pannonia, which arrived in port during the night, said his vessel passed through a zone patrolled by two German warships. Radiograms in code passing between them were intercepted.

The Pannonia left Gibraltar July 25, and until she approached this coast the officers had no knowledge of the situation in Europe. Several hundred miles out she received a message from a British cruiser, warning her to beware of capture.

All lights except those necessary to the navigation of the ship were extinguished. Early yesterday the Pannonia passed the Lusitania. The ship was dark except for her running lights and was being driven at a high speed.

Soon afterward the Pannonia was in communication with a British warship, which informed her that she might go ahead without fear, as there were several British ships within wireless call. Later the Pannonia's wireless operator heard German cruisers in communication with each other.

The Pannonia brought 604 passengers in the first and second cabins. The Hamburg-American Line emphatically denied today that the steamer Vaterland was being fitted out here as a cruiser, or that she would sail on any mission whatever.

Guards about the pier were still maintained today, and presumably as a precaution against approach by small boats with hostile intent, a huge net was stretched in the water across the stern of the vessel.

Mauretania Reached Halifax, Conveyed by the Cruiser Essex.

HALIFAX, Nova Scotia, Aug. 6.—The Cunarder Mauretania arrived here at noon today, having been conveyed to the mouth of the harbor by the British cruiser Essex, which picked her up south of Sable Island. She, too, has passengers, all of whom probably will be landed here.

Correspondent on Firing Line Describes Desperate Fight at Mill Bridge, Vise

LONDON, Aug. 6.

N. JEFFRIES of the Daily Mail, in a Brussels dispatch, timed at 6 p. m. Wednesday, wires: "The fight at Mill Bridge at Vise was very desperate. The German infantry were in deep masses, flanked by batteries of field guns and quick-firers. The Twelfth Belgian line regiment took up a position behind the walls of the houses along the Meuse. The fusillade lasted a half-hour. The Germans then brought up their guns in front of Luxhe and Hallem-bays, while two Germans constructed a bridge of boats. The men at Port Barchon let them build the bridge, but once it was finished they destroyed the pontoons with shells.

"During the fight at Vise a Belgian Sergeant, stepping out from the ranks, knelt down amid a hail of bullets to take aim at a group of German staff officers, bringing down three. German losses were 80 and Belgians 12 killed and wounded.

"Regiments coming from Berlin appear tired out, but the others are good. The Belgian Twelfth Line Regiment, on entering Liege, got a frenzied ovation.

"To fill up the tunnel at Nasprout, the Belgians derailed a locomotive, then sent two others crashing into it. The destruction by Belgian engineers of the village of Boncelles, near Liege, stirred everyone with emotion. The soldiers put tar on all woodwork and set fire to the church presbytery. Two large villas and 100 dwellings burst into flames. The distressed inhabitants fled to Liege.

"The officer in command near Chaudfontaine told me of the great success of Belgian reconnoissances, including those made by airplanes. 'We are reliably informed,' he said, 'that Boy Scouts have been seen carrying messages in the German firing line.'"

WAR CAUSES RUSH FOR NATURALIZATION PAPERS

Number of Applications Increases From 400 to 500 Per Cent in St. Louis.

Since European hostilities began the applications for foreigners for naturalization papers in St. Louis have increased from 400 to 500 per cent, according to Deputy United States Circuit Court Clerk Edward Tobin.

In normal times, he said, only about four or five applications were received a day. He said that for the past few days from 25 to 30 have made application daily.

Many apply at the office of the naturalization examiners and ask if they will have to return and fight for the old country if they take their first papers out immediately.

A great many of those making application are Germans and Austro-Hungarians. Many have come from East St. Louis and other points in Illinois to talk in person with the Government officials.

Ernst Busch, Penniless, Gets to London From Continent

LONDON, Aug. 6.—Ernst Busch and Mrs. Busch of St. Louis, Baroness von Kierdorf, three children and seven servants, arrived here today from Havre. Destitute, they applied to the American Committee for aid.

They were near Deauville, France, when, Friday, they received a wire from Baron von Kierdorf of Germany to "Go to the English frontier."

They waited three days, then motored to Havre. The servants spoke no French, and their English betrayed the party, which was threatened at Havre.

This cablegram from London first gave the name A. A. Busch. This later was corrected to Ernst Busch.

Carnegie, Peace Palace Builder, Approves War

NEW YORK, Aug. 6.—Andrew Carnegie, one of the world's most distinguished peace advocates, builder of the Hague peace palace, approves of England's course in the present crisis. In a cable message from Scotland to the New York Evening Post, he says:

"Germany having declined Britain's proposed peace conference, and then having asked Britain to agree to her march through Belgium, Britain was bound to decline, and to declare that she would protect Belgium by land and sea."

BAND CONCERTS TONIGHT

Lafayette Park, Popping's Band; Forest Park, Vogel's Band; 7 to 10 o'clock. Free Movies Twilight. Lyon Park, 8 to 10 o'clock.

FORWARDING ADDRESS? PEACE CARE OF U.S.A.

"I'm it awful!" said Mrs. W. "Indeed, it's just terrible," exclaimed Mrs. Jones.

"Who'd ever think of such things being done in these civilized times?" "I never would have believed it."

"So me body ought to do something about it." "Are you two talking about the war?" asked Mr. W. "Why, yes, John. Isn't it terrible? The men who make the French hats have all joined the army and there won't be any Paris styles this year."

GERMANY'S DARING PLAN TO SEIZE THE FRENCH COLONIES

line, finding unexpected resistance, moved farther northward, invading Dutch territory at Tilburg and crossing the Meuse at Eysden.

At about noon yesterday the German infantry attempted to carry by assault Fort Barchon, to the northeast of Liege.

The attacking infantry crept up under the cover of a heavy artillery fire, but the Belgian defenders reserved their fire until the Germans had come to close quarters, when, at a signal, the Belgians opened with a hail of bullets from rifles and machine guns which wreaked havoc among the Germans. The attackers soon lay in heaps of dead and wounded around the fort.

At the same time Fort Chaudfontaine, to the southeast of Liege, kept up a hot fire on another body of Germans who had seized a castle. The Belgian artillery reduced the building to a mass of smoking ruins. The Germans finally retired all along the line.

One newspaper says the German losses amounted to between 4000 and 5000 men, while they abandoned 17 machine guns.

A German officer taken prisoner by the Belgians said he was amazed at the resistance offered to the German advance. The Germans had been given to understand at Berlin that they would not be opposed in Belgium.

Gen. Linear, in making his official report of his operations in the Liege district, states that in Wednesday's battle 25,000 Belgians were engaged against 40,000 Germans. The success of the Belgians was complete. Every attack of the Germans along their extended front was repulsed, the German Seventh Army Corps retreating into Dutch territory. The Belgians collected 600 wounded in German lines.

The attack on Liege yesterday was executed by one German army corps, while the Belgian force consisted of a mixed brigade supported by the artillery of the forts.

The battle was fought along a wide front and partially in the open fields.

The Belgian troops carried out several furious counter attacks throwing the Germans back and pursuing them up to their original positions.

Not an inch of ground was gained by the Germans during the fighting, and they suffered severe losses in dead and wounded.

News All From Belgium Sources

LONDON, Aug. 6.—While all the reports of the fighting in Belgium come from Belgian sources or through avenues friendly to the Belgians, and because of that are discounted somewhat, everything indicates King Albert's fighters really have repulsed the attack of the German forces.

A dispatch to the Chronicle from Amsterdam says it is reported that 3500 Germans were killed or wounded in the fighting at Vise, Belgium. The postmaster of the town was shot because he refused to send telegrams for the Germans, the correspondent says.

A dispatch to the Standard from Brussels says that between 500 and 600 wounded Germans are being brought to the Belgian capital. Herve, Peppinster and Remouchamps are occupied by Germans, but a large Belgian force is advancing against them.

Hundreds of automobiles left Brussels during the night to pick up the wounded. The first prisoner of war brought in was a German captain named Forstner, who was wounded.

Holland Proclaims Neutrality

THE HAGUE (via London), Aug. 6.—An official Gazette today proclaims the strictest neutrality in the Anglo-German and Belgo-German wars.

German Levant Liner Captured

MALTA (via London), Aug. 6.—The British torpedo-boat destroyers have captured and brought here a German Levant liner.

German Cruiser Taken by French

The French Embassy learns that the French fleet has captured a German cruiser.

According to the Telegraph, Gen. Sir Ian Hamilton, Inspector General of the overseas forces, will command the home army.

Queen Enlists as Nurse

Boy Scouts Catch Spies

BRUSSELS, Aug. 6.—The anti-German feeling throughout Belgium has become intense and many German residents were arrested today and charged with espionage. Thousands of women of all classes have been enrolled as Red Cross nurses and are awaiting the arrival of the wounded from the battlefields around Liege. King Albert has handed over his palace to the Red Cross Society, and the Queen will act as nurse.

Belgian Boy Scouts, while patrolling yesterday, captured a German cavalier and two engineers, believed to be spies.

Wireless Messages Continue

to Be Sent to German Ships

NEW YORK, Aug. 6.—Although President Wilson has issued an order prohibiting wireless stations in the United States from transmitting messages of an unneutral nature, the Atlantic Communication Co.'s powerful tower at Sayville, L. I., today sent several messages in code to German warships lying off the coast.

These messages, according to a German employe of the company, were received from the cable offices of the Postal Telegraph Co. and the Western Union Telegraph Co. in this city. Others were received from a person in New York, it was said.

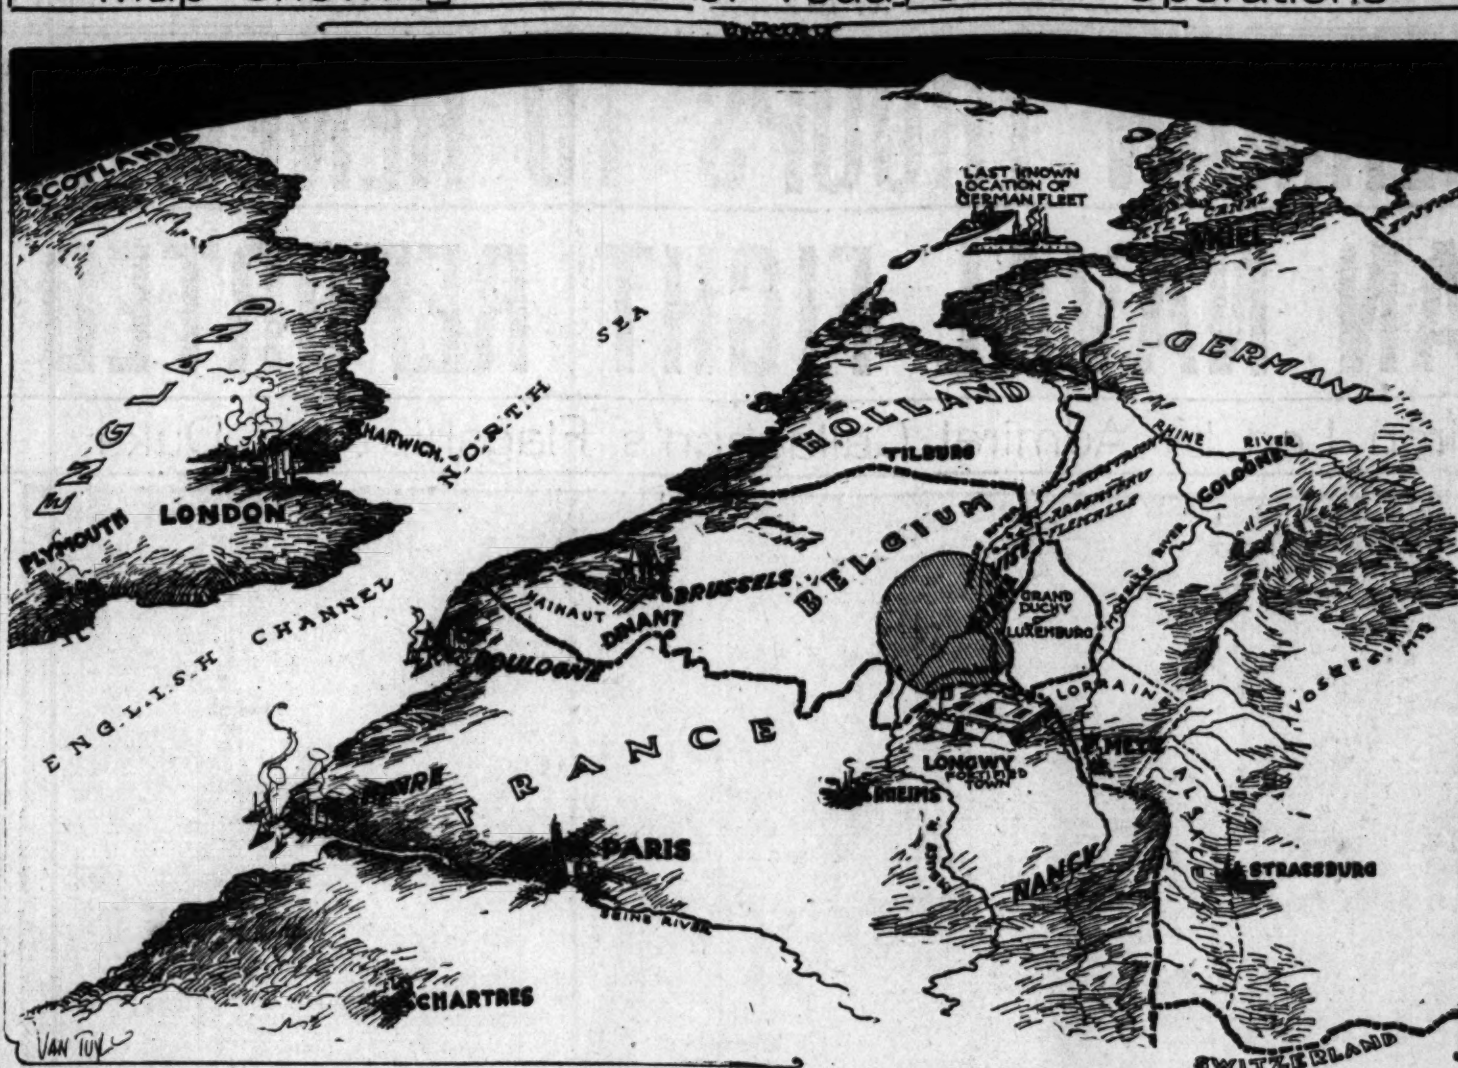

The manager of the company, a member of the naval reserves of Germany, said he had read in the newspapers that President Wilson had issued an order in regard to the transmission and receiving of messages, but that he had no official notification of any kind.

German Ambassador Leaves

London; No Demonstration

LONDON, Aug. 6.—The German ambassador, Prince Charles Max Lichnowsky, with the Princess and his suite, left London today by a special train for Harwich, en route to the Continent. A large crowd was assembled by the railroad station when the special drew out, but there was no demonstration.

Map Showing Scenes of Today's War Operations

The map shows the advance of the German army into Belgium, on its way to the Franco-Belgian border, and the district, centering in Liege, where the Belgian army is offering determined resistance to the invasion. The towns of Herve, Remouchamps, Argenteau and Flenalle, which have figured in the skirmishes, are shown. Liege is the principal Belgian city on the railroad line from Berlin and Cologne to Paris, which crosses the German border into Belgium near Aachen (Aix-la-Chapelle), and which traverses the Meuse valley as far as Namur. It then proceeds, via Charleroi, to the French border town of Jeumont, 80 miles northeast of Paris.

STAGE FOLK NOW HELD BY WAR IN FOREIGN LANDS

Much Concern Felt for Timely Return of Many Dramatic and Operatic Stars.

It is announced from New York that theatrical, operatic and concert managers now are deeply concerned for the return from Europe of many of their stars in time to fill American engagements already arranged for the early months of the new season about to open.

Urgent messages are said to have been sent to the Government at Washington asking that ships flying the American flag be hurried across the Atlantic to bring these players, singers and other amusement-folk to this side of the water.

Nearly every important member of the Metropolitan Grand Opera Company of New York is abroad at the present time.

Mme. Schumann-Heink, the great contralto, now in Germany, has cabled her counsel in Chicago, asking that something be done to enable her to return to America. Her cablegram reads: "As no letters are allowed, and intercourse with outsiders is forbidden, we are stranded in Bayreuth. When will she be sent for her citizens?"

Kitty Cheatham, the world-famous American folk-singer and story-teller, is in Europe, but her exact whereabouts are unknown. Her friends are worrying on her account.

Stage People "Marooned." Under contract with the Liebers for an early New York stage engagement, is in London. She dreads an ocean voyage under the most favorable conditions. It is feared that she may refuse to sail with war against the high seas.

Other Lieber players booked in New York this fall are Phyllis Nelson-Terry, the English actress, who is to make her debut as a Shakespearean star in New York City on Nov. 3; Katherine Escondido, Clifford Brooks, Lennox Paul, Mr. and Mrs. O. P. Heggie, Vernon Steele, Philip Tonge, Arthur Elrod, George Relf, Richard Brunton, Elnita Lascelles, Eva Vincent and J. Y. Bryan.

Leonore Harris, who has an important role in the Brady production of Thompson Buchanan's new melodrama, "Life," this fall, is in Paris. Unless she returns to this country the play's premiere will be postponed, as her part was written especially for her and Playwright Buchanan is unwilling to entrust it to any other actress.

The following members of the Boston Symphony Orchestra are in Europe: Dr. Karl Muck, conductor; Otto Uruck, assistant conductor; Walter Hahnel, leader of the second violins, and Alfred Hely, first harpist.

French Censor Lets Through

Boost for Gen. Joffre

VIRTUALLY all war news from Europe which comes to America is from London, and that is heavily censored. Germany is isolated, Vienna is isolated, and the following is the only message the censor in Paris has permitted on the cable today:

PARIS, Aug. 6, 3:30 a. m.—France's great army has been placed under the supreme command of Gen. Joseph Joffre, who enjoys great popularity with the men as he does with the French nation generally. He is known as a man of strong will, and it is a common saying in the army that when Gen. Joffre has once made up his mind, nothing will deter him from changing it. French military men express full confidence in his skill.

Gen. Joffre is 62 years old. He has been married 10 years, but is childless. He is of medium height and stout, with a massive head, very fair hair and thick drooping moustache. He is noted for his excellent horsemanship. He was trained as an engineer and while on duty in Madagascar constructed the harbor of Diego Suarez, the principal one in the island.

The mobilization plans for the French Army were drawn up by Gen. Joffre last April, and the result of their execution had exceeded all expectations.

and His Brethren," by Louis N. Parker, also is in Europe. Edward Egan, the young American dramatist, is in London, but no word has been received from him. Two new plays of his writing are to be produced on this side early in the fall.

Joseph Urban, who designed the costumes for the approaching production of "The Garden of Paradise" in New York, is lost somewhere in Europe, and Signor Sapelli, who is to stage the play, is in Italy.

Leo Kohlmar of the original "Potash and Perlmutter" company, is abroad. The Hanlon Brothers, Fred, William and Alfred, who have a pantomime comedy production, suffered the loss of their American touring car by confiscation in Amiens the other day. They now are at Dover.

Elsie Janis and Ina Claire, bright particular stars of the musical comedy stage, are in Europe.

Edna Wallace Hopper is known to be in Paris.

Of the vaudeville contingent, the following are now abroad, but booked for early engagements in this country: Kathleen Clifford, Della Webb, Howard Brothers, George Austin Moore, Cordelia Hager, Jack Norworth, Ethel Levey, Lee White, Nat Carr, Cross and Josephine Hattie Burke, Ted Lorraine, the Avon Comedy Four, Charles and Fannie Van Fay, Coleys and Fay, Bison City Four, the Four Bards, Amelia Stone and Armand Kallias, Josie Heather, the Three Alecks and Trovato.

Citizens To Be Drafted for

Harvesting Crops in France

PARIS, Aug. 6.—Standing crops valued at several hundred million dollars are threatened with destruction because there is no labor for the harvest, due to the mobilization.

A scheme is on foot to draft able-bodied men who have not been called to the colors and to draft other inhabitants of the cities and country districts. Swiss also promises to help. Natives are being brought from Alsace for the vintage.

Yesterday's War Developments

Reports from Algiers, that French warships had sunk the German gunboat Panther, and had captured the German merchant ship Goeben, and the cruisers Breslau, were discredited in London, through lack of official confirmation.

The German army, striving to cross Belgium on its way to the French frontier, found its advance a costly one. The Belgians defended the fortified city of Liege, and repulsed the Germans with heavy loss. The Germans burned the town of Vise, near Liege. German troops were reported to have entered Holland, at Tilburg.

The cable lines connecting Germany and the United States were cut, east of the Azores, presumably by a British warship. This will prevent this country from receiving war news from German sources.

President Wilson offered his services as mediator, in case any of the contending nations are willing to

WARSHIPS SENT TO COAST CITIES TO KEEP NEUTRALITY

Daniels Orders Boarding of Vessels Trying to Sail Without Papers.

WASHINGTON, Aug. 6.—To protect the neutrality of American ports and prohibit shipments of munitions of war, Secretary Daniels today ordered the battleship Florida, at Tompkinsville, Staten Island, to watch the ports of New York, the Mayflower to proceed to Hampton Roads, a number of destroyers to guard ports along the New England coast and those at Lewes, Del., to prevent violation of neutrality at Philadelphia or in that territory.

A vessel attempting to sail for a billigerent port without clearance papers will be boarded by American destroyers. The Texas and Louisiana at Tampico, have been ordered to New York and Secretary Daniels announced that other American vessels would be ordered north as fast as room could be found for them at navy yard docks.

Secretary Garrison expressed his chagrin at the disposition of American steamship companies to charge what he considers exorbitant prices for vessels to transport Americans. Garrison said preliminary inquiries brought information that vessels could be obtained for about \$600 a day. The price suddenly has been doubled.

"I do not intend to have anyone get suddenly rich out of this business," said Garrison. "The steamship companies will find that they cannot use this occasion to siphon money out of the United States Treasury."

For that reason Garrison said it would be his purpose first to employ some of his army transports at Galveston already being refitted for transatlantic service. He has made inquiry if he has authority to commandeer commercial vessels for the emergency.

Commodore Benedict Plans

Trip to Rescue Doughter

NEWPORT, R. I., Aug. 6.—Commodore Benedict is having his yacht put in readiness to start across the ocean after his son-in-law and daughter, who are marooned on the other side.

KING AND QUEEN SET EXAMPLE FOR ENGLISH FRUGALITY

They Direct That Only Simplest Fare Be Served to Them While the War Lasts.

Special Cable to the Post-Dispatch and New York World.

LONDON, Aug. 6.—The king and queen are intensely elated this morning over the first day's war news from land and sea. The stubborn fight being put up by Belgium arouses great enthusiasm and, if possible, has quickened the demand that a British expeditionary force shall be sent without delay to its assistance.

The Germans evidently thought they could walk over the Belgians. German diplomacy had created the impression that a secret understanding existed between Germany and Belgium.

The fight at Liege, however, was comparatively a small affair, and when three German Army corps deployed to make a passage through Belgium, got to work the Belgians alone hardly can be expected to check them.

Calmer Feeling in London. The feeling here is growing calmer since Lloyd George's reassuring statement on the financial position in the House of Commons. By Friday the money crisis will be over, with a lowering of the bank rate and the issue of pound and 10 shilling notes, while possible orders also can be used as currency.

The mint is coining more silver of which the Government has a great store. The Government also is taking measures to prevent a rise in the price of the necessities of life. Big purveyors of food and provisions were in consultation with the Home Secretary today. Retailers already had begun to inflate the prices, causing a panic in many districts among small householders who exhausted their resources laying in a stock of eatables.

King George and Queen Mary have set an example of frugality for their subjects by ordering that nothing but the simplest fare shall be supplied to their table while the war lasts. At the House of Commons members will take only shilling dinners, while a majority of automobile owners are storing their cars so as not to uselessly consume petrol. The Government is requisitioning motors and a large number already have been taken. Motor buses still are running, but in decreased numbers, many being used for moving men and military stores in connection with the mobilization, which is working out with perfect smoothness.

More than 30 alleged German spies were arrested in the last 12 hours in various parts of the country, two of them being suspected of planning to blow up a store in connection with London and the Chatham dockyard.

Germans Keep Off Streets. The anti-German feeling is running high and Germans are rarely seen in public places.

Prince Lichnowsky, the German ambassador, departed today with an escort of a British cruiser from Harwich to the Hook of Holland. He looks an utterly broken man. He comes here since intention of improving the Anglo-German relations, but his good will was defeated by the policy of Wilhelmstrasse.

He and his Princess were very popular in society and have been intimate with the Asquith household. After Lichnowsky had returned to the German embassy yesterday with a passport given to him by Foreign Secretary Grey, Mrs. Asquith and Miss Elizabeth Asquith called at the embassy. The Prince had a long conversation with Mrs. Asquith in her motor. A crowd silently watched the scene. At the same time a weeping janitor was taking down the brass plate and double-headed German eagle from the embassy door. It is now replaced by a notice that German interests are in the hands of the United States Embassy.

The streets are packed with people who indulge in patriotic demonstrations at every opportunity. Many vehicles carry combined British, French and Belgian colors. Frenchmen are wearing Union Jack buttons, together with the Tricolor and Englishmen are returning the compliment.

There are queer and touching mixtures of enthusiasm and pathos in the scenes of departing continental trains taking French and Belgian reservists. All railway terminals are packed with cheering crowds, while the wives and daughters of the men leaving London break down and have to be led away by their friends. Everywhere men in khaki are to be seen hurrying through the streets. The principal cricket ground of South London, where all the big matches are played, has been appropriated by the War Office for military purposes.

German Colony at Antwerp

Reported Being Expelled

BRUSSELS, Aug. 6.—It is reported that the German colony at Antwerp is being expelled. However, as the colony comprises 25,000 persons, the report is not taken very seriously.

German Boys Enlist. The street in front of the American Consulate-General today was packed with Germans, mostly youths of the servant class, coming from all parts of the British Isles to register their names, so that they may return to Germany to fight, if possible. The Germans were peaceable and the police on duty were able easily to keep them in line.

The clerks within the Consulate-General meanwhile registered their names and address and stamped their military books to protect them against being classed as deserters in case they were unable to return to Germany.

There was no show of feeling against the English in the crowd of men returning to their fatherland as a patriotic duty. Their usual answer to the question as to why they were going west "We must."

Several hundred German seamen expelled from France arrived here and are boarded in the various sailors' homes. Thus far no case of incense or ill-treatment of Germans by the English have been recorded.

GERMANY SEEKING FRENCH COLONIES, ENGLAND CHARGES

Was Willing to Promise Only to Annex No Part of European France Proper.

LONDON, Aug. 6.—A white book on the recent correspondence which preceded the opening of hostilities between England and Germany was issued today. It contains a letter from the British Ambassador at Berlin, Sir William Edward Goschen, saying that Germany had made "a strong bid for British neutrality," offering, if Great Britain remained neutral, to give assurance that Germany did not aim at territorial acquisition at the expense of France.

Asked if the same attitude applied to the French colonies, the German Chancellor, Dr. von Bethmann-Hollweg, said he was unable to give a similar assurance regarding the colonies.

The British Foreign Secretary, Sir Edward Grey, replied to the Ambassador's communication:

"It would be a disgrace for us to make this bargain with Germany at the expense of France; a disgrace from which the good name of this country would never recover."

Refused to Betray France. The Times today says: Important disclosures bearing on recent diplomatic history are expected in the House of Commons. Sir Edward Grey is likely to make statements surpassing in gravity those contained in his speech on Monday, and it is probable that diplomatic papers to be laid on the table of the House will throw an unexpected light on the motives that have inspired the aggressive ardor of Germany.

There is reason to believe that a main object of Germany's action is the acquisition of French colonies, and that as the price of British neutrality, Germany was prepared to give assurances that no French territory in Europe would be annexed.

The British Government declined to lend itself to the betrayal of France, which, under these conditions, British neutrality would have involved.

Germany Sought War. "It is stated that, in his intense desire to maintain peace, the British Foreign Secretary was almost 'unprecedented lengths' in order to offer the German Government an opportunity of avoiding a European war on honorable terms. Not only did Germany fail to avail herself of this opportunity, but she adopted a course of action which made war inevitable."

In competent diplomatic quarters it is now regarded as proved that the German Government has been deliberately working for war for weeks. All its assurance of its peaceful intentions have been carefully calculated.

Goeben Reported Safe

Along Sicilian Coast

ROME (via London), Aug. 6.—The Tribune publishes a report today that the German cruiser Goeben and Breslau, which were reported captured by the French, have arrived at San Salvatore, near Messina, Sicily.

One of the German officers, in an interview, said that, while the Breslau was shelling the French naval station at Bona, Algeria, sinking ships in the harbor and destroying the castle and some houses, the Goeben bombarded Philippeville, further along the coast. He added that the two cruisers were subsequently pursued by a British squadron.

Suggests U. S. Legion Wear

Costumes Like Lafayette's Men

PARIS, Aug. 6.—The appeal of American residents for the formation of an American legion suggests that such an organization should adopt "The martial costume worn by the bold brothers in arms of Gen. Lafayette when in the sacred name of liberty they landed in the United States to place their swords at the disposal of our immortal Washington."

colony comprises 25,000 persons, the report is not taken very seriously.

German Boys Enlist. The street in front of the American Consulate-General today was packed with Germans, mostly youths of the servant class, coming from all parts of the British Isles to register their names, so that they may return to Germany to fight, if possible. The Germans were peaceable and the police on duty were able easily to keep them in line.

The clerks within the Consulate-General meanwhile registered their names and address and stamped their military books to protect them against being classed as deserters in case they were unable to return to Germany.

There was no show of feeling against the English in the crowd of men returning to their fatherland as a patriotic duty. Their usual answer to the question as to why they were going west "We must."

Several hundred German seamen expelled from France arrived here and are boarded in the various sailors' homes. Thus far no case of incense or ill-treatment of Germans by the English have been recorded.

Committee Gets Hotels to Extend Courtesies and Arranges for Cashing Checks.

TOURISTS WITHOUT NEWS

Disclaim Knowledge of Fighting in Places Where Hostilities Are Reported.

By Louis Seibold,
A Staff Correspondent of the Post-Dispatch.

Copyright, 1914, by Press Pub. Co. (New York City).
LONDON, Aug. 6.—The silver lining of the cloud in being over the Americans marooned in London has appeared and has had an encouraging effect upon their hitherto depressed spirits, although it was not accompanied by the eagerly sought assurance of the safety of the many hundreds still in the war zone on the continent.

Arrivals from Paris and points in Belgium are fast diminishing, but they all have some tales to relate of personal discomfort and difficulties in getting to London as here told by those preceding them.

A strange feature of these stories is the utter dearth of information as to actual war conditions beyond repudiation of the printed stories of conflicts between German, French and Russian troops on the borders of three countries.

Five Americans, headed by E. J. Shulz of Detroit, coming through Belgium, say there were no signs of fighting in the districts where it has been reported. They say that many Americans scattered in towns along their routes are trying to get away.

Vanderbilts in Trouble.
Prominent among the late arrivals was Reginald Vanderbilt of New York, who came from Paris. He tried to get 20,000 francs there, but was told he couldn't get it. At the Berkeley he borrowed \$5 from a porter to pay cab hire.

Cornelius Vanderbilt of New York also arrived. He came from Germany in an effort to locate his yacht, the North Star, which was missed by him at the Baltic rendezvous. He is also trying to find where his wife and children are. When he last heard from them they were in Switzerland.

The culture of the State Department to send a reassuring message of the Government's purpose to send ships for refugees is inspiring a great deal of complaint among Americans.

Ambassador Page, who is unjustly made the subject of criticism, told an excited crowd of Americans at the embassy that the only message he had received in answer to his appeal of Sunday was a telegram from the State Department asking what the requirements of the Americans here and on the continent.

He declared it would be impossible for any agency, human or otherwise, to be more expeditious than the American Government has been. Yet it was obvious from the Ambassador's demeanor that the State Department did not appreciate the actual conditions existing among the Americans here and on the continent.

Situation Improved.
The situation of the Americans in London has much improved in consequence of the resumption of business by the American Express Co., and the really effective work of the citizens' organization.

When the American Express Co.'s office was opened there was a line of 80 persons, waiting for the mail to the Haymarket, clamoring for money. The company announced willingness to cash orders up to \$50 for each individual. In three hours the company paid out between \$500 and \$700 on such basis. This continued today, with a prospect of cashing in full orders after Thursday.

Oscar B. Straus and F. I. Kent, representing the Citizens' Committee, had one hour's conference with Ambassador Page as soon as possible after the organization was completed. Subsequently notices were posted at the Embassy and at leading hotels that American Bankers' Association check not exceeding \$5 to each person, would be cashed at the committee's office in the Savoy Hotel, and also that the Great Eastern Railway on Aug. 4 and 5 would cash express companies' checks, travelers' checks and similar paper, not exceeding \$5 to each person.

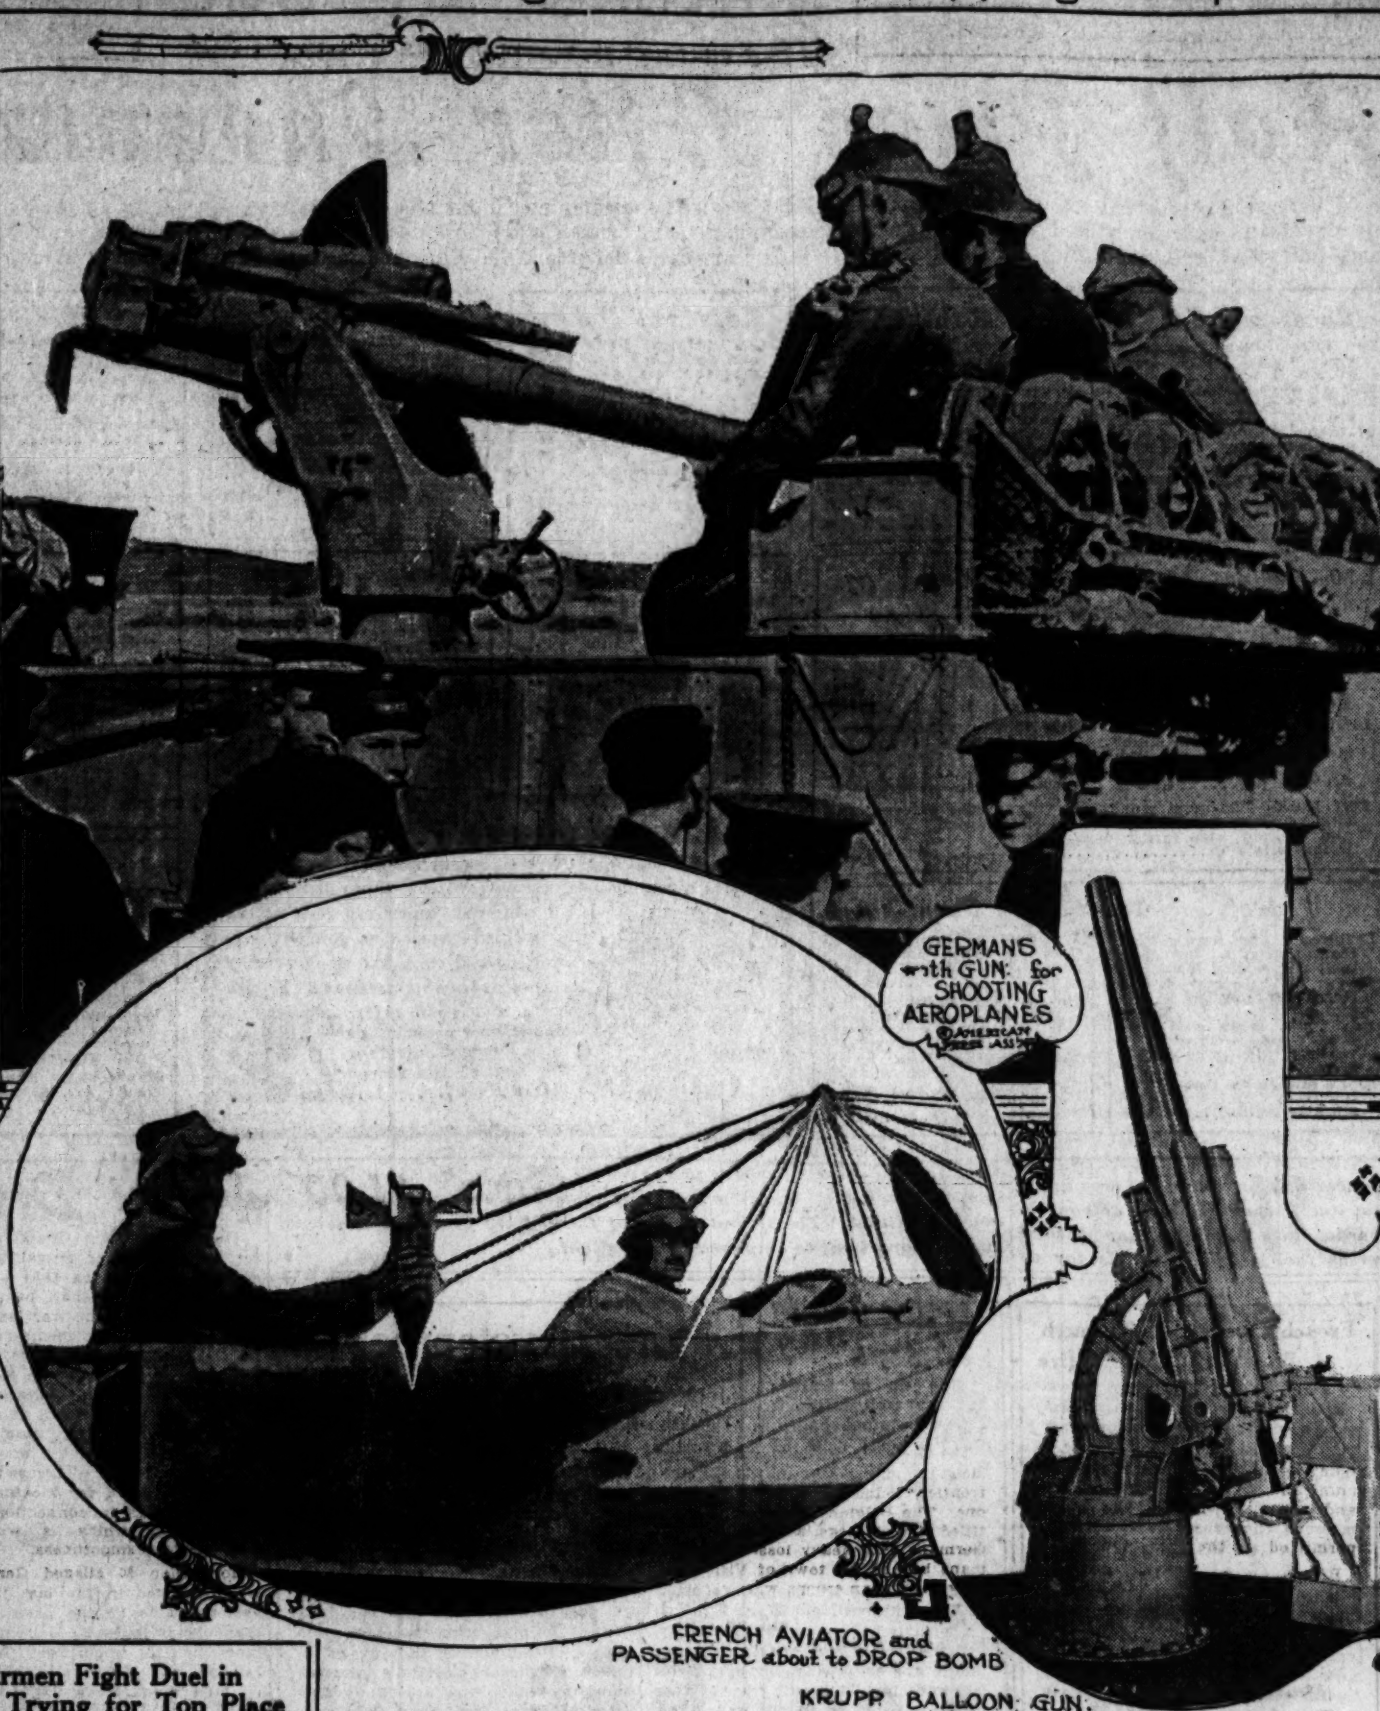

The Citizens' Committee has induced hotel keepers to extend credit to Americans having money orders, letters of credit or American currency. The leading hotels now accept express money orders and are extending other courtesies to their guests. Furthermore, the organization has secured assurances from officials of British, Dutch, Danish and Norwegian steamship companies that scheduled sailings are almost certain unless unexpected developments interfere.

Many Passengers.
The Citizens' Relief Committee prepared for the pressing wants of 15 persons during the day, 19 of them women. Some of them were entirely without money. More than 300 Americans have registered at the committee's office.

The first vessel bound to New York since Germany declared war on Russia, Saturday, was the steamship Philadelphia of the American line, which sailed from Southampton today at noon. Four hundred of the passengers looked went at Southampton yesterday afternoon rather than wait for the regular boat train. Every passage commanded premium ranging from \$50 to \$200. One man offered \$200 for berth for himself, his wife and their two children.

Three wealthy Americans are trying to arrange to charter a yacht owned by

How War Is Made Against Bomb-Dropping Aeroplanes

Airmen Fight Duel in Trying for Top Place

LONDON, Aug. 6.—The Standard's correspondent at Liege sends a story of a duel named Furness and a German aviator. The two exchanged revolver shots while maneuvering for the top position. Finally both planned to the ground.

The Daily Mail's correspondent at Brussels reports that a German aeroplane, flying at a height of 1500 feet was brought down by a shot which also wounded the pilot. A Zeppelin airship, managed by Germany, was struck by the fire from a Belgian fort, and fell near Herze.

A British nobleman to take himself and 40 friends to New York. The price demanded is \$50,000. The promoters of the enterprise are willing to give \$20,000. One of a dozen telegrams sent to find Mrs. T. J. Harahan of Chicago and her niece, Miss Harris, found them at Copenhagen, where they had arrived after an exciting trip from Moscow. They sailed to Holland and arrived last night at the Hotel Ritz from the Hook.

Mrs. Laurence E. Sands and Mrs. A. Singleton Paul of Pittsburgh have reached Hotel Savoy, while their husbands are safe in the United States. Judge Walter E. Vincent of Providence, R. I., who was touring in Scotland, arrived in London. Howard Gould and party have gone to Scotland.

Reports of Tourists.
Mr. E. G. Mann and E. de Reicker of Erie, Pa., who have been living in Paris for seven years, started for London in their automobile. It was taken from them and so was their hand baggage. It cost them \$45 to bring their three trunks here, besides their passengers' tickets.

Mr. and Mrs. Joseph Hart of Chicago, who paid \$500 for their reservations on the Imperator, are returning in the steamer on the Philadelphia, and have emphatically written on the back of their tickets that they never intend to return to Europe. They came to England on a boat from Holland that was packed for hours before it sailed, and no food or drink to be obtained.

At the Hotel Cecil are Mr. and Mrs. James L. Stone, Miss Mary E. J. C. Cassel and son, Robert Allen of Roanoke, Va.; Mr. and Mrs. H. C. Lawrence, Miss Lawrence; Mrs. Fred Coy Kendall, Miss Kendall, Mrs. Albert Symptom of New York, Mr. and Mrs. James W. Bueche, Miss Bueche, Mr. and Mrs. Arthur G. Fuller, Mr. and Mrs. J. R. Ainsley of Boston. John T. King of Baltimore is at Hotel Russell.

George Williams and Carroll T. Bond are at the Carlton. R. J. Hill Jr. and family of Philadelphia are at the Victoria. Mr. and Mrs. W. A. Delano, Mr. and Mrs. J. Henry Williams, Miss A. M. Reed and Miss Emma Ross of Philadelphia are at the Metropole. Mrs. Joseph G. Mattison and Mrs. Charles A. Combs of New York are at Hotel Kensington.

TENNESSEE SAILS TODAY; TRIP TO REQUIRE 10 DAYS

Cruiser Carrying Money for Tourists May Bring 200 Persons Back.

NEW YORK, Aug. 6.—The cruiser Tennessee, with \$7,500,000 in gold, including \$2,500,000 appropriated by the American Government for the relief of Americans stranded in European ports, prepared to start on her voyage today from Tompkinsville, S. L., where she dropped anchor last night, after leaving the New York navy yard.

The dreadnaught Florida, after having been hastily coaled and provisioned, left the Brooklyn navy yard under sealed orders at 9:30 this morning and proceeded to Tompkinsville. There she dropped anchor near the Tennessee. Navy yard officials would not say what was the Florida's destination, nor did they announce when the Tennessee would get under way.

The \$5,000,000 in gold from the consolidated banks and the \$2,500,000 in Government funds was not taken aboard the Tennessee until this morning.

Private Consignments Taken.
Private consignments in gold in sums from \$100 to \$5000 were accepted yesterday by Col. Smith of the Quartermaster's Department, who undertook their delivery to Americans in Paris and other European cities. In addition, the Tennessee carried 200,000 tons of coal and it was said that if she should run at her maximum speed of 20 knots this supply would run out before the end of the trip. It was expected that a collier would be sent to the other side to coal the Tennessee for her return trip.

The executive officer of the Tennessee, Lieut. Commander E. F. Joseph, however, explained that the big cruiser would not attempt to make more than 13 knots on the trip, to conserve her coal supply. At this rate of speed about ten days will be required for the trip.

Officers Don't Know Destination.
None of the officers of the Tennessee knew her destination. It was their orders, they said, to take Assistant Secretary of War Brockmeyer, who has complete authority to act upon

Funds for Relief of Tourists May Be Sent to the Subtreasuries

WASHINGTON, Aug. 6.—SECRETARY MAGDOO has made the following announcement:

"The Treasury Department at Washington and the subtreasuries at San Francisco, Chicago, New Orleans, Baltimore, Boston, St. Louis, New York, Cincinnati and Philadelphia, will receive deposits for the benefit of American travelers and give receipts therefor. The Congress appropriated today \$2,500,000, with authority to make advances to American travelers in Europe who may be in need of assistance. A large part of this appropriation will be sent to Europe immediately, to be advanced to American travelers under the direction of the Secretary of the Treasury, acting in co-operation with the Secretary of State and the Secretary of War, whose representatives will accompany the cruiser Tennessee, sailing Aug. 6."

"Whenever funds are deposited with the Treasury Department for the benefit of any American citizen in Europe, the Treasury Department will endeavor to locate the proposed beneficiaries, and if found out of the above appropriation as may be necessary to cover their immediate needs. The department will reimburse itself for such expenditures out of the funds that may be deposited in the Treasury or the Subtreasuries as aforesaid, and will return to the depositors when the accounts finally are made up any unexpended balance of their deposits."

"From this time forth funds should not be sent to the State Department or to any other department except the Treasury Department or the Subtreasuries as mentioned."

His orders from Washington direct him. Among the passengers are Ambassador William, who is returning to his post at Madrid, and army and naval officers assigned as military observers in Europe. On the return trip accommodations for 20 Americans will be available.

Urges Disregard of Flag by British Warships

LONDON, Aug. 6.—The Morning Post proposes that England resume her rights of capturing all cargoes destined for hostile countries, under whatever flag the vessel may be sailing.

AUSTRIANS AGAIN SHELL BELGRADE; DAMAGE PALACE

Francis-Joseph's Troops Reported Repulsed in Trying to Cross River.

BELGRADE, via London, Aug. 6.—The Austrians renewed the bombardment of this city today. They seriously damaged the royal palace, the National Theater, the British Legation and many private houses. The Serbians did not reply to the shelling. Three persons were killed and many injured.

The Austrian attempts Monday to cross the River Save at Avala, nine miles from Belgrade, and Obrenovatz, 16 miles to the southwest, failed. The Serbian volunteers crossed the river and hoisted the Serbian flag at Delermine. Serbian officials express the opinion that the passage of the Austrian troops through Serbian territory has become impossible.

French Ambassador Had to Make Own Way From Berlin

PARIS, Aug. 6.—The French Ambassador to Germany, Jules Cambon, according to official information, was not provided with any means of transportation for his return to France when he received his passports at Berlin. He was obliged to use his own resources and to go to Denmark, where he remains.

It was said at Berlin that the mobilization had monopolized the railways, but it is officially commented that the French Government provided a special train to take the retiring German Ambassador, Baron von Schoen, from Paris to the frontier.

English Diplomat on Vacation Is Recalled

SAN FRANCISCO, Aug. 6.—Sir Ralph Spenser Paget, British Under Secretary of State in charge of the American Bureau of the Foreign Office, had a leave of absence which he had been suspended by cable yesterday and he left for New York, whence he plans to sail on the Mauretania for London.

Sir Ralph is accompanied by Lady Paget, his two cousins, Reginald and Arthur Paget, sons of Lieutenant-General Sir Arthur Henry Paget, and another cousin, Gerald Chichester, a younger son of Lord Arthur Henry Chichester of Tisbury.

GERMANY'S HOPE LIES IN BELGIUM, U. S. EXPERTS SAY

French for 40 Years Have Been Building Invulnerable Frontier Defenses.

WASHINGTON, Aug. 6.—American army officers think that in the campaign through Belgium lies Germany's only hope of marching her soldiers into France. Even allowing for the necessity of crushing the Belgian army, the experts here regard this as the most feasible point of attack.

For nearly 40 years French engineers, among the ablest in the world in adaptive design, have been laboring like beavers constructing fortifications of earth and steel, even including great revolving turrets like those of a dreadnaught, along virtually every mile of the frontier between France and Germany, south of Belgium. Army engineers think these defenses invulnerable except against an army vastly outnumbering the French forces behind the parapets and in the rifle pits.

Men in First Effective.
The American action is that one soldier behind such defenses as the French have on this border is equal to four in the attacking army.

This ratio of effective defensive and offensive power might be greatly reduced by systematic siege operations, but this would involve the expenditure of that most precious factor in a campaign—time—which would not coincide with the supposed German plans for a dash into Paris.

Therefore, the beginning of the campaign in Belgium had been expected here and the outcome is being watched with great interest in the general staff. The belief is that the Belgians for the present will confine themselves to obstructive tactics in the German front, feinting and skirmishing and falling back so as to reduce their percentage of loss and losing no opportunity to harass the advancing German army and, if possible, to cut its line of communication.

While this is going on, American strategists believe the French forces, which are very numerous near Rheims and to the north and south of that fortress, will come to the aid of the Belgians.

Waterloo May Be Recreated.
Within one year of a century after the defeat of Napoleon at Waterloo the German and French and Belgians again may come together in a desperate and decisive battle in almost the same theater of war.

Reports of naval engagements in various places were regarded as precursors of many similar events in the four quarters of the globe. Naval strategists are quick to point the lesson of the dangers of a division of the fleet. Germany has weakened her position by clinging to the old practice of dispersing her naval vessels far and wide in the time of peace, failing to guard against the sudden outbreak of a war that would make concentration impossible.

Admiral Howison Believes English Are More Efficient

NEW YORK, Aug. 6.—Germany's navy will be no equal for that of England, thinks Rear Admiral H. L. Houston, U. S. N., retired.

"The English and German navies have never been tried out against each other," said he yesterday in his home in Yonkers, "but I should judge the English are more efficient. Germany has a good navy, but England, of course, has more ships. The fighting efficiency, ship for ship, of the English, I think, is better than that of the Germans. England has a very powerful fleet in the North Sea, and I should think it would strike the Germans right away."

"The hardest fighting will undoubtedly be in the North Sea. England has fought some of her best naval battles there."

"Russia has a navy a little smaller than France's. Its fighting reputation suffered in the Japanese war, but it now has a lot of new boats."

Many Americans Near the 'Great Battle Scene at Vise'

NEW YORK, Aug. 6.—Grave fears were felt here today for the safety of hundreds of Americans who, it is believed, were unable to leave and were caught in the vicinity of the first battle yesterday in Belgium.

In the third valley of the Meuse are the towns of Herve, Pepinster, Verrieres, Vise and Argenteau, which are reported to have been attacked and in some instances sacked and burned by the German invaders. They are the gateways to Belgium's famous resorts. Spa, where many Americans are known to be, lies two miles south of Pepinster.

The railroad at Pepinster is reported to have been destroyed, shutting off any opportunity for escape of all foreigners. Verrieres, where reports say the Germans met their first repulse, is the woolen center of Belgium and is famed for its manufactures.

U. S. Fleet at Vera Cruz Plans to Return Slowly

WASHINGTON, Aug. 6.—Assistant Secretary Roosevelt today denied a published report that the American fleet had been ordered to return from Vera Cruz.

He said that it had been decided before the war began to bring back the fleet slowly and that most of the vessels probably will be returned within the next few weeks. He declared emphatically that their return had nothing to do with the European situation.

Cubans Are Advised to Be Neutral in the War

HAVANA, Aug. 6.—President Menocal has issued an address, announcing the state of war in Europe, and recommending the Cuban people to observe strict neutrality.

Expert Believes German Repulse Only Temporary

LONDON, Aug. 6.
THE military correspondent of the Times says it will take Germany nine days more to place upon the French frontier forces adequate to challenge the French masses, and it will take France about the same time to assemble all her army. The advance on one side or the other can hardly begin before Aug. 14. The first decisive battles of the war are expected to take place between Aug. 16 and 22.

"There is little doubt," the Times correspondent adds, "that the Germans will succeed in forcing their way through Belgium. The patriotic spirit shown by Belgium in the face of German aggression could not be excelled."

"Germany's determination to advance through Belgium bears out the contention that the German staff, long ago, decided that the invasion of France through her strongly fortified frontier was too difficult to be relied on. It is plain that Germany thought it preferable to violate Belgian neutrality, and drive England into the field against her, rather than to rely on getting into France through the latter's curtain of powerful fortifications."

The combat which will come in the next 10 days, the Times' correspondent says, will be those of "covering" troops, whose mission is to protect from hostile incursions the zone of concentration of the main armies. If, for the next 10 days, these covering armies keep the enemy from breaking into the concentration zone, their task will be fulfilled, he says.

When the Germans take Liege, the great Cockerill works, which are to Belgium what the Krupp works are to Germany, will probably be abandoned. The Cockerill plants employ 18,000 men. All the important small arms plants of Belgium are also located at Liege, and locomotives and railway materials are largely manufactured there. Capt. O. L. Garden of the United States revenue cutter Seminole, acting as a special representative of the Department of Commerce in Europe, was on an official visit to the Liege industries when the war began. He is now in London.

GEN. MILES SAYS AIR FLEETS AND WIRELESS BOMBS MAY DECIDE WAR

Aeronautics and Wireless Telegraph Destined to Prove Most Destructive Implements in Present Conflict, He Asserts.

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Aug. 6.—That wireless telegraph and aeronautics are destined to prove the most destructive implements in the present European crisis, and may entirely do away with the modern battleship, if not also the massing together of great armed forces of men on land, is the opinion of Gen. Nelson A. Miles, U. S. A., retired, in an exclusive interview given to the Post-Dispatch.

General Miles, who is visiting at the summer home of Nathan Straus at Mamaroneck, has followed the events leading up to the war of the nations with the keenest interest. A year ago he was in Bulgaria and at the time predicted that unless the great Powers of Europe should cease their preparations for war, the greatest conflict of arms in the world's history inevitably would result.

"The use of wireless telegraphy," declared Gen. Miles, "is a new element in warfare, and will undoubtedly be used most effectively by all the great nations involved in the present struggle for supremacy among the Powers. What it will do in the way of changing warfare cannot be anticipated at this time."

"The science of aviation has undoubtedly developed the most daring body of men ever engaged in any enterprise. This has been clearly demonstrated in every civilized country of the earth. I believe that the courage and skill of the aviators of the contending nations may be equal, the results will be determined the same as was the case in the use of the breech-loading rifle, the machine gun, the high-power guns, the steel armored ships and dreadnaughts."

"Great battles in the air will soon be recorded, and such heroes as Garros, the

400 AUSTRIANS AWAIT WORD HERE TO LEAVE FOR WAR

About 400 Austrian reserves and recruits who have registered with Dr. John Schwagerl, Austro-Hungary Consul at St. Louis, are prepared to start for the scene of war as soon as notice arrives that transports are ready to carry them.

Attaches of the Austrian Consulate said Thursday that the enlisted men would remain at home while awaiting this word, to avoid the expense of feeding and housing them at seacoast points. The Consuls of European countries, now at war, are making few definite statements regarding the enrollment of men. Dr. A. F. W. Breitling, the German Consul, declined to make any statement.

The discovery by Marc Seguin, the French Consul, that President Wilson's neutrality proclamation may place a ban upon enlistment of French reserves and recruits, would not be commented upon by attaches of the office. It is known that Seguin wired Chicago for additional instructions after reading President Wilson's proclamation.

Seguin was not at his office in the De Meul building and others in charge would not say what instructions had been sent from Chicago.

There is every evidence that the German Consul is enrolling men.

SHANGHAI HEARS OF JAP PLAN TO ATTACK TSING-TAU

SHANGHAI, Aug. 6.—An official at the Japanese consulate here said today that on receipt of the first official news of the beginning of the clash of arms between England and Germany, Japan would send a fleet with 10,000 men to attack Tsing-Tau and 10,000 more to relieve the British garrisons at Tien-Tsin and at Pekin. Preparations for such action were now under way, he said.

Two British regiments, the Gloucestershires and the South Wales borders, stationed at Tien-Tsin, have been ordered south. They are awaiting the arrival of a transport. An Indian regiment of Punjab will remain at Tien-Tsin.

Wilson's proclamation.

Supreme—Crowning Sale of SUMMER DRESSES for Women, Misses and Juniors

1000 Cool, Dainty Dresses—
 \$2, \$2.50, \$3.50 and up to \$7.00 Values

FOR
\$1.00

700 of them are brand-new, from a manufacturer who had
 just that many Dresses left over from the season-end, and let
 us have them at less than cost of making alone. They were
 made to sell at \$2.00 and \$2.50.

225 are from our regular \$3.00 and \$3.50 lines, in which the
 assortments are broken; 75 are from our regular \$5.00, \$6.00
 and \$7.00 lines, of which only 2, 3 and 4 of a kind are left.
 Just to make a "whirlwind" finish, we'll sell the entire 1000
 tomorrow, choice without reserve, for

ONE DOLLAR

Here are 6 of the
 styles at \$1.00.

There are altogether about 20 styles.
 Sketch above shows six of them. In some
 of the styles the quantities are limited to
 30 to 40 Dresses—but in most styles there
 are 75 to 100 of each.

The styles are all new and smart, as a glimpse at the 6 in
 sketch will show—tunics, coats, combinations of contrasting
 colors, embroidery trimmed, piping, buttons, etc. Materials
 are striped and figured dimities, lawns, flowered and striped
 voiles, white organdies, voiles and ratines; linens in solid col-
 ors, tans, blues, pink, lavender and white; not a Dress in the
 lot worth less than \$2.00 and up to \$7.00. Come early for
 choice of best, at \$1.00.

**NOTICE—No restrictions as to quanti-
 ties. Buy as many as you want. Select ac-
 cording to sizes. NONE TRIED ON.

 OLIVE AT 10th ST

RICH, NOT POOR IN ST. LOUIS, TO FEEL WAR'S PINCH

Business Men Say Luxuries Will
 Cost More, but Necessities
 Will Not Advance.

MEAT MAY BE CHEAPER

Wines and Other Imports Likely
 to Go Higher, but Not
 Clothing.

The European war will not affect St.
 Louisans so far as the actual neces-
 saries of life are concerned, in the op-
 inion of business men engaged in the
 import business. Sharp advances in the
 price of the luxuries such as fine
 wines, cheese, canned goods, Parisian
 hats and gowns, and the finer qualities
 of chemicals may be expected within
 the next few months, if the war con-
 tinues.

Coffee, which is imported principally
 from Brazil, may also increase in price,
 as there is not more than a two-months'
 supply in this country, according to the
 coffee importers. It is not expected
 that there will be any serious difficul-
 ty in importing the coffee direct from
 Brazil, by way of New Orleans, but
 lack of financial connections between
 the United States and the South Amer-
 ican countries is likely to cause a
 great deal of trouble, and may seriously
 curtail the coffee supply.

Charles A. Stitz, president of the
 Grand-Leader, which imports large
 quantities of European made goods,
 told a Post-Dispatch reporter Thurs-
 day that nine persons out of 10 would
 not be affected in either the cost or
 quality of their wearing apparel.
 "All the clothing worn by nine out
 of 10 persons is manufactured in this
 country," Stitz said. "Even those who
 wish to wear imported gowns and hats
 will not be greatly affected during the
 first six months of the trouble, because
 practically all the goods for fall and
 winter trade are already in this coun-
 try."

Silks Made at Home.
 "We import only the finer hand-made
 goods from Europe. The finest gowns
 and millinery are made in Paris, which
 also fixes the styles for this country.
 But most of our silks are made at
 home, and our raw material is import-
 ed from the Orient."

"We can live very well on the good
 plain foods of our own country, and
 even those who demand luxuries in
 wines can consume domestic cham-
 pagnes and substitute bourbon for
 Scotch whiskies."

"It might be well to warn the women
 folks not to break any dishes unnece-
 ssarily, for the supply of chinaware is
 likely to be cut off, especially the better
 grades."

Charles Stottfren, president of the
 Steinwender-Stottfren Coffee Co., said
 that all coffee shipments from Brazil
 and other South American countries
 would be delayed on account of lack of
 financial connections between this coun-
 try and Brazil.

"We have no American banks in Bra-
 zil," Stottfren said. "All the business
 has been done through London and
 other European banks. If we had bank-
 ing connections there would be no
 trouble, as the coffee merchants could
 draw on us, instead of on London."

Coffee Trade Uncertain.
 "Conditions are very uncertain in the
 coffee trade. The wholesale price has
 advanced probably a cent a pound, but
 there has been no increase as yet in the
 retail price. No coffee is offered in the
 market now from Brazil, and there is
 not more than a two months' supply in
 this country."

"It takes two months to get a ship-
 ment from South America to the United
 States, so it is not unlikely that there
 are troubles ahead for us. There will be
 a big increase in price, unless the war
 is terminated quickly. All shipments of
 tea have been delayed, and while most
 of the spices come from the Oriental
 countries, prices already have advanced
 from 1 1/2 to 2 cents a pound."

There will be big increases in freight
 and insurance rates, on account of the
 war risk, and that will cause advances
 in the prices of these products to con-
 sumers."

G. J. Meyer, secretary of Meyer Bros.
 Drug Co., said that large quantities of
 chemicals and drugs were imported
 from Europe, and that the drug trade
 was likely to feel the effect of the war
 to a considerable extent. Many of the
 higher grade chemicals are imported
 from Germany, he said; mineral waters
 from France; and olive oil from the
 Southern European countries. Prices
 certainly would be advanced on the
 imported products, he said.

Canal Available to World's

Battleships After Aug. 15
 WASHINGTON, Aug. 6.—After Aug.
 15, the date on which the Panama Canal
 will be thrown open to the traffic of
 the world, any warship of any nation
 will have the right to peaceable and un-
 interrupted passage through it," said
 Secretary of War Garrison. "This is
 guaranteed by the provisions of the sec-
 ond Hay-Pauncefote treaty, ratified
 Nov. 1, 1901."

One article of the Hay-Pauncefote
 treaty says: "Vessels of war of a bel-
 ligerent shall not remain in such waters
 longer than 24 hours at any one time
 except in case of distress, and in such
 case shall depart as soon as possible;
 but a vessel of war of one belligerent
 shall not depart within 24 hours from
 the departure of a vessel of war of the
 other belligerent."

If the war in Europe continues until
 next February the naval parade at the
 formal opening of the canal will have
 to be eliminated.

**German Bombardment of
 Finland Port Reported**
 LONDON, Aug. 6.—The Daily Mail
 publishes a dispatch from Copenhagen
 stating that a German squadron is
 bombarding Abo, Finland.

Half Price After Inventory Sale

Now that we have finished counting, listing and stock-taking, we have completed our inventories, rearranged and marked down the thousands of odd, broken and small lots which the inventories disclosed and force their immediate departure.

Our stocks are still exceptionally large and embrace this season's choicest and most desirable wares. The sharp price reductions made for Friday's rousing selling demonstrate how thoroughly earnest and sincere this Half-Price Sale is.

CARRANZA AND CARBAJAL AGREE ON PEACE TERMS

War Council of Provisional President Decides Upon Unconditional Surrender of Mexico City, but Expects Rebels to Grant Partial Amnesty.

WASHINGTON FEARS NEW REVOLT BY VILLA

General Is Reported Preparing for Renewed Hostilities—Bryan Considers Sending Envoy to Him to Make Peace Appeal.

WASHINGTON, Aug. 6.—Jose Carranza, representative of Provisional President Carranza of Mexico, after a conference with Secretary Bryan today, officially confirmed the statement that a peace agreement between Gen. Carranza and the Carralistas delegates had been reached and expressed the opinion that the situation had now cleared and the peaceful occupation of Mexico City by the Constitutionalists was assured. The Administration still finds cause for worry in the warlike attitude of Gen. Villa toward Carranza. Secretary Bryan said today that efforts are being made to bring the diverging factions together. The President is anxious over the turn affairs have taken. The State Department is considering the advisability of sending Gen. Hugh Scott, a friend of Villa, to confer with him. John Lind is also talked of as a probable commissioner from Bryan to Villa.

Carranza Council—War Agrees to Unconditional Surrender. MEXICO CITY, Aug. 6.—Peace for Mexico City now seems a certainty. The Council of War, consisting of 113 Generalists decided last night upon the unconditional surrender of the city to the Constitutionalists. No guarantee will be requested of Gen. Carranza, the Constitutionalists leader. A peace proclamation probably will be published today. President Carranza yesterday received a message from Gen. Carranza, dated Jalisco, State of Guanajuato, in which Carranza called upon Carralistas to resign, informing him that the Constitutionalists army was marching on the capital.

German Hostilities Flock to Vera Cruz on Way to War. VERA CRUZ, Aug. 6.—A great number of refugees arrived here last night. The greater number are Mexicans, but there are also many German residents on their way home. All the hotels are crowded and many were unable to obtain lodgings. There are no civilians available to take away the refugees. The only vessel about to leave for Havana and New York being the Monterey, the accommodations on which have already been reserved.

Villa Reported Preparing Army for Break With Carranza. CHIHUAHUA CITY, Mexico, Aug. 6.—Gen. Felipe Angeles has received orders from Carranza to enter the field against Carranza and Carralistas. The order was in any case, Carranza's order by Villa outlines an issue of Carranza's army. Villa has not severed relations with Carranza, but is reported preparing for that step.

Villa Reported Offending Timber to Republic War Chest. EL PASO, Tex., Aug. 6.—Lives made on Americans and other foreigners in the part of Northern Mexico controlled by Gen. Francisco Villa have caused complaints to be filed with the State Department at Washington. Large quantities of timber are being cut from the holdings of the Kansas City, Mexico & Orient Railway and the Chihuahua Lumber Co., and sold for the benefit of the Constitutionalists war chest.

4,000,000,000 FISH DISTRIBUTED IN YEAR

WASHINGTON, Aug. 6.—Approximately 4,000,000,000 fish and game fish were propagated and distributed by the Federal Bureau of Fisheries in a year, according to a report just made public by Secretary Baileys of the Department of Commerce. Of this amount \$1,000,000,000 represented the mysterious food fish of the Atlantic coast streams, 1,000,000,000 the commercial fish of the great lakes, 1,000,000,000 the important food fish of the North Atlantic coast, more than 20,000,000 the salmon of the Pacific coast and the rest the fish of other interior waters. This is the largest annual output of the Fishery Bureau. Distributions of fish suitable for feeding barren public waters, or for restoring public waters which have become depleted, were made in virtually every state of the Union and Alaska, while thousands of small inland ponds and lakes, the majority of them on farms, were stocked with black bass, crappie, pumpkinseed, catfish and other desirable species. Of a enormous output for the year, 30 per cent represents the commercial fish, 70 per cent a very large percentage of which were hatched from eggs which would have been entirely lost had it not been for the activities of the Bureau of Fisheries.

Summer Census Strengthened. MARIETTA, Ga., Aug. 6.—Federal census taking in connection with the local election in the Marietta State Agricultural College will be particularly strengthened during the coming year by the efforts of Miss Rebecca McDermott, a Columbia University graduate, who has been named assistant in charge of domestic science at the school.

Major Luncheon in the Cool Restaurant—Music by the Cassidy Trio, 12 to 2 P. M.—Sixth Floor

Special—A Sale of Blouses at a Dollar!

For Which You Would Ordinarily Pay \$2

Kuppenheimer Clothes Included

The need of making room for the fast-arriving Fall and Winter stocks is imperative, and for this reason former prices and reductions have not been considered in this sale.
Not for many a day have men been offered such an extraordinary opportunity to replenish their wardrobe from such a stock of fine tailored Ready-to-Wear Suits from the leading and best-known clothing manufacturers in this country.
There are Suits in every size, for every man—from the newest models for the younger fellows, the two or three-button, soft English roll affect to the more conservative styles for older men.
The fabrics are the finest weaves, from foreign and domestic looms, including fine blue serges, blue-and-black unfinished worsteds, fancy worsteds, velours, cassimeres and a host of others, in the season's newest patterns, including tartan checks and hairline stripes, in all of the most desired colors.
Sizes to fit any man, stout or slim, from 32 to 50 inch chest measurement.
And, remember, these are just such as you have regularly paid \$18, \$20, \$22.50, \$25, \$30 and up to \$40 for. You can choose any of the lot now for the uniform price of **\$14**
Any necessary alterations will be made without extra charge. (Main Floor.)

WOMAN WALKING IN SLEEP CAUSES AUTO TO UPSET

Two Men Hurlled to Street Trying to Avoid Somnambulist Armed With Revolver.

Mrs. Tillie Schaefer, of 1131 Channing avenue, the somnambulist, whose nocturnal strolls have been interrupted by the police more than a dozen times in the last two months, narrowly escaped walking into an automobile at Channing and Bell avenues about 1 a. m. Thursday. The chauffeur overturned his car to avoid a collision.

Frank Cummings, chauffeur for Frank Warren, of 419 Delmar avenue, was driving his employer home and was about to cross Channing avenue on Bell avenue when Mrs. Schaefer, clad in a nightgown and carrying in her outstretched hand an empty revolver, started across Channing avenue in the path of the machine.

Cummings turned his car suddenly to the south to avoid striking the woman and hit the temporary tracks of the Hammond line with such force that the machine was thrown over on its side. Warren and Cummings both were hurled into the street but escaped with bruises.

Mrs. Schaefer, still asleep and unconscious of the accident she had caused, was turned over to a policeman who disarmed her, awakened her and took her home.

Two weeks ago Mrs. Schaefer walked in her sleep 10 blocks from her home. On that occasion her relatives told the policeman who accompanied her home that they believed the only way they could stop her from leaving home in her sleep was to put extra locks on her bedroom door.

She had been picked up in various parts of the Dayton Street District on numerous previous occasions while walking about in her sleep.

FIREMAN ON LADDER AMID SMOKE FALLS TO DEATH

He Is Hidden From Sight When Overcome; His Neck Broken by Drop; Fiancee Goes to View Body.

Charles Lowe, 36 years old, a fireman with engine company No. 2, stationed at Ninth and Market streets, was killed Wednesday evening in a fall from an aerial ladder at a fire which damaged buildings at Eighth and St. Charles streets.

Lowe is believed by Chief Swingley to have been overcome by smoke in which he had been working at the top of the ladder for more than an hour. He could not be seen by persons on the ground because of the smoke, but they realized that he had lost control of the hose a moment before he fell headlong to the ground at the foot of the ladder.

At the morgue it was found that his neck had been broken. A few minutes after his body reached there, his fiancée, Miss Mary Wolff, with whose mother Lowe boarded, at 313 Market street, arrived. She was taken home.

Several Places Damaged.

The fire started in the four-story building formerly occupied by the N. O. Nelson Manufacturing Co., but which is now divided into several stores and lots. The stores damaged were: Harlan Brothers Tailoring Co., 414 North Eighth street; Garlock Packing Co., 414 North Eighth street; Prince & Co., and Reliable Manufacturing Co., on the third floor at 414 North Eighth street, and the Brilliant Sign Co., 729 St. Charles street.

E. E. Harlan, vice-president of Harlan Bros. Tailoring Co., estimated the damage to his stock at more than \$30,000. The Brilliant Sign Co., according to E. F. L. Kohl, vice-president of the company, suffered a loss of \$20,000. Prince & Co. was damaged very slightly, according to a statement of Z.

GERMANS CAPTURE RUSSIAN COUNT IN SPEED CHASE HERE

Motorcycle Squadron Overhauls Noble in a Hudson Cruiser at 2 A. M.

Germany conquered Russia early Thursday in St. Louis, taking a rich prize in the person of one of the czar's counts and a fast flying Hudson cruiser. Patrolmen Gliese and Simon, Teutons, drew into the lee of friendly shadows at 2 a. m. with their motor cycle speed destroyers and dropped anchors at Locust and Twenty-eighth streets, prepared for scouting and outpost duty.

Suddenly the muffled roar of a powerful engine was heard in the offing, seemingly running under forced draft. The officers cleared the decks for action and drew into battle line.

The muffled engine sounded nearer. Then suddenly over the hill from the west four searchlights loomed up. Gliese and Simon waited on their destroyers until the craft had flashed past, making full 90 knots an hour.

As the first craft rushed by it was quickly followed by a second one, and the Germans went full speed ahead.

For six blocks the chase continued. Then finally German's speed destroyers drew alongside the Russian auto cruiser. Then it was found that the man at the wheel was none other than Count Leontovich Leschinsky, 32 years old, a broker, who spent the last 10 years in St. Louis. He is a guest at the Buckingham Hotel.

After drawing alongside his craft they commanded him to halt in the name of the majesty of the law.

Robert Stewart of the Hotel Jefferson, an American who had been to a summer garden with the Count, and was acting as his convoy in another machine, drew up alongside. He had been following in the wake of the Count, but had not been making as much speed.

Blames Clutch of Auto.

The Count said he would not have violated the law if his clutch had not jammed, and offered to take the officers examining his machine. They declined, saying that all orders were to take such prizes of war straight to the nearest police port. So, escorted by the Teutons, he was taken to the Central Police Station.

The Count was released on his own bond. He appeared in Municipal Police Court later in the morning and was fined \$5, which was stayed on payment of costs.

After his arrest it was reported at the Dayton Street Police Station that an officer hearing the Count's number had bumped into a milk wagon of the Fevely Dairy Co., at Grand and Washington avenues, shortly before 2 a. m. Likewise, it was said that the autoist proceeded on his way without stopping.

In the Dayton Street Court later he will answer a charge of careless driving, and running away from the scene of an accident.

BLIND LAWYER WHO WON NOMINATION GIVES WIFE CREDIT

Candidate for Prosecuting Attorney Says She Aided in Campaign.

One of the surprises of Tuesday's primaries was the nomination of Walter A.

Kelly, a blind lawyer, for Prosecuting Attorney. Kelly defeated four other candidates, despite a combination formed against him by the Democratic organization in several river wards.

Kelly told a reporter that he attributed much of the credit for his nomination to his wife, whom he married a year ago. He has been totally blind since boyhood, when a Chinaman threw lime into his eye when a number of boys tormented the Chinaman.

During his campaign she acted as his private secretary, and arranged his speaking dates for him. Kelly said that every morning she would read to him the newspapers, keep careful record of all speeches which his opponents made, and make notes of political meetings to be held that night.

Then she would figure the distances from one meeting to another, the shortest itinerary for him, and make arrangements for him to be heard. Likewise she aided him in the preparation of his speeches, and handled all of his correspondence.

Although totally blind, Kelly has remarkable "second sight." He can go anywhere in St. Louis without a guide, using only his cane to find his way along. He can usually recognize those he has met by the sound of their voices seldom making a mistake. He has practiced law in St. Louis for 10 years.

Previous to the present campaign he has run for a number of offices without success.

WILLIE: One of the fellows joined the "Vacation-land Club" of Lott's line, the National Credit Bureau, 20 River, 108 N. 3rd. We all bought a diamond ring. I got yours.

UNIVERSITY BULLS ARE EDUCATED IN ATHLETICS

MADISON, Wis., Aug. 5.—The University of Wisconsin has extended its physical education department to the varsity farmyard. A 70-pound tree stump is suspended in a chain from a steel support for the young bulls, who learn to sharpen their horns on it.

The stump is the object that gets butted about when the animals are in playful mood. In cool weather they stand in front of it and raise it with their heads for hours at a time. Sometimes the bulls get so playful that they snap the big stump from its chain support.

How Is Your Weight?
While it is true that the much weight is not to be desired yet the fact remains that many men and women are thin to the point of danger. This danger lies in their having no reserve force or nerve power to combat deadly diseases. A little extra flesh is needed by all to feel well and to look well, and this calls up the question of how best to increase the weight. Physicians and chemists, by experiments, have solved the problem of increasing the white and red corpuscles of the blood, by the administration of a grain hypophosphite tablet, and this is usually followed by an increase of weight. Obtain a sealed package, and take for a period of several months according to directions with package—ADVERTISING.

Street Commissioner Talbert announced Thursday that safety zones for pedestrians would be established on the four corners at Grand avenue and Olive streets and on the northeast corner of Tenth and Olive streets, this week.

The zones will be indicated by movable posts like those in the downtown district. These posts will be placed in feet

Slaughter Houses Condemned.
NASHVILLE, Tenn., Aug. 2.—The State Pure Food and Drug Department has condemned 14 slaughter houses, which now must make their premises sanitary or abandon them.

Trade Commission Measure Wins by 53 to 16, Goes to House for Final Disposition.

The Senate bill provides for a committee of five members to take over duties now performed by the Interstate Commerce Commission. The bill empowers the committee to investigate the business, financial condition, conduct and management of corporations doing an interstate business and to issue and enforce orders against "unfair competition."

Administration leaders in the Senate were determined today to press for prompt action on the Clayton bill.

TOPEKA, Kan., Aug. 6.—While Charles Curtis, former Senator, con-

Fifteen counties complete, including the home counties of the candidates, gave Curtis a lead of 1900. Bristow supporters, however, declared returns from western counties not yet reported would cut down Curtis' majority.

With a plurality of 269 votes, while Hugh P. Farwell claimed his own nomination by a plurality of 560.

Returns indicated that Mrs. Lizzie S. Sheldon of Lawrence would be one of the six nominees for Justices of the Supreme Court. There were 11 candidates. Three of the six nominees will be elected at the November election.

Completed returns from several districts have made changes in the standing of various candidates. Although it had been conceded that U. S. Geyer of Kansas City, Kan., received the Republican nomination for Congress in the

JENNINGS BAD THIRD IN OKLAHOMA RACE

Williams Leads in Contest for Democratic Nomination for Governor.

OKLAHOMA CITY, Ok., Aug. 4.—J. Williams of Durant is leading in the contest for the Democratic gubernatorial nomination. Complete returns from 18 counties show R. L. Williams, 884; J. B. A. Robertson, 819; A. J. Jennings, 624. Incomplete returns from 11 additional counties give Williams a small plurality.

In the congressional contest James B. Davenport appears to have won over Pat Malloy of Tulsa. Hastings looks like the winner over J. H. Maxey and Campbell Russell for Congress in the Second District. Early reports gave Hastings a plurality over Maxey in Muskogee, Maxey's home town.

Senator Gore is a winner by a big majority.

MAKING SO MUCH MONEY HALF HOLIDAY IS CUT

Printers Filling \$100,000,000 Order for Currency Are Working Night and Day.

WASHINGTON, Aug. 6.—A discontinuance of Saturday half-holidays to clerks of the Bureau of Engraving and Printing was ordered today at the request of President Wilson. The clerks will work in shifts all night and Sundays until the present rush order for money making is filled.

All the available printers of the district, who have taken the civil service examinations, have been engaged for work on the \$100,000,000 currency order. Secretary McAdoo has asked for an emergency deficiency appropriation of \$20,000 to provide a sufficient fund to get out the money.

"THE VACATION-LESS CLUB" is all the go. Members get special prices on diamonds and watches. Ask Lofie Bros. & Co. about it. 24 floor, 308 N. Sixth st.

BOY HURT BY SLIDE INTO A SLOW FIRE

Four-Year-Old Alton Child Is Burned While at Play With Companions.

Morris Sheff, 4-year-old son of Marshall Sheff, was severely burned when he slid down a sand bank at Third and Plum streets, Alton, Wednesday evening and landed in a smoldering rubbish pile.

He and other boys were playing on the sand bank when Morris took a longer slide than had been taken before and sank to his hips in the fire. The other boys ran away. Mrs. Missouri Green, a negro, heard his cries and ran to his assistance and pulled him out. He was taken to his home.

Slugged and Robbed by Negroes.

Edward W. Diaz, who gave his address as 912 Forest avenue, Kansas City, told the police Wednesday night he was slugged and robbed of \$3 by three negroes at Nineteenth and Chestnut streets.

JUDGE E. H. NORTON DEAD

Former Member of Supreme Court Was 92.

ST. JOSEPH, Mo., Aug. 4.—Former Judge Elijah H. Norton, one of the best known jurists of Missouri, in the early days, who served as a member of Congress and upon the State Supreme bench, died early today at his home in Platte City.

He was 92 years old and was born in Kentucky.

IT'S COOL IN DULUTH

Two Men on Cycle Hit Cook. Fred Avery, 25 years old, of 458 Julia street and Harry Katz of 488 Tenth avenue were injured Thursday night when Avery missed a motor cycle on which he and Katz were riding into the curb at Seventeenth and Locust streets to avoid colliding with an automobile truck. Katz suffered a fracture of the jaw and Avery contusions of the face.

SHOE MART

The Mystery of Sally

She Was a \$4-a-Week Nurse Girl Who Deposited \$50 Each Week in the Bank Because of Her Ability to Hold Down Two Jobs at One and the Same Time.

By Charles Sloan Reid.

SALLY was a hired girl, the servant since the baby came, about 12 months before. But we realized that at last we had found a treasure. Sally was inventive. The household repertoire of amusement which she furnished for our toady-work was something to command the admiration of the most callous-brained possessor of the never-smiles.

This aggregation of inventive genius had been purchased at a weekly installment of four dollars. Cheerfully, we should have made it five on demand. A week after her arrival.

But Sally seemed to be devoid of the craft contamination and, indeed, she spent her money like a lord, more than half of her weekly pay going for groceries of one kind or another for the amusement of our little one. A car ride to the park each day for the pleasure of our baby formed one of her personal extravagances. Baby soon became so much attached to her that "Mama" was no longer interesting, except at certain periods during the day, and these periods Sally managed so cleverly that no disturbance came to the household security through baby's impatient demands.

One thing soon became apparent. Sally had the going habit. She wanted to be away from the house more than half the time, but, as our little one always came back from these little excursions somewhat excited, and, hating the thought of the many contagious diseases of childhood—such as measles, chicken-pox, whooping cough or some other horrid thing—this habit of Sally's was not at all inconvenient to the household.

NOTHING thing which recommended Sally was the habitual bestness of her person, and what he came an interesting mystery to us was the matter of how she could spend from two to three dollars per week so easily and unhesitatingly for the amusement of our little one, and draw herself with such taste on the remainder.

Finally, we decided that Sally must

be getting credit somewhere, and that we should raise her wages, in order that she might be enabled to meet her obligations.

But about this time I saw Sally emerging from a bank one day. I had been some distance away and unobserved by her.

The cashier of this bank was a particular friend of mine, and I determined to learn something of Sally's financial operations. This I had no trouble in doing, and soon learned to my amazement that Sally was not a borrower, but a depositor, to the extent of forty or fifty dollars a week.

My wife and I held a consultation over the matter for the mystery had deepened. Why one who could indulge the daily extravagances of Sally, and yet deposit forty dollars per week, should hire herself out at a wage of four dollars per week was amazingly mysterious.

And yet, Sally was not a thief. Not the smallest item of anything of value had been missed from the house, and no coins or bills were kept about the place.

So the mystery of Sally deepened. But, notwithstanding this, Sally was invaluable odds the best nurse we ever had. We determined that nothing should dispossess us of her services—no, not if it became necessary to raise her wages to ten dollars per week, which extravagance I could of course afford.

Sally Was

More of a

Jewel Daily.

Should have kept her I do not know. But accident plays a large part in the movement of human affairs, and it was an accident which led to the separation of Sally from us.

An employer from our mills had been seriously crushed in a dray collision over on the East Side, and I had gone over to investigate the responsibility for the accident. This matter being soon concluded, I was returning to the office, when I met Jenkins, a friend of mine. Jenkins likes a fakir, or a side show performance better than anything.

and the East Side was noted for its attraction for fakirs and showmen of one kind or another.

"Do you know," he began, "I have found one of the smoothest artists in the show line down here that I've seen in a long while."

"Wild animal tamer, and he has been playing to crowded houses here for the past six weeks. You want to see this, especially the afternoon performance, at which he gives an extraordinary feature."

He was leading, and we soon came to the entrance way of a large tent which occupied a portion of the area usually taken up by the showmen. Outside were a number of big posters announcing, both by word and illustration, the wonderful feats performed by the man inside, among them being one which was especially horrifying—this being announced in big letters as the special afternoon feature. Jenkins had obtained tickets and was hurrying me inside.

At Last the Big Lion Came Forth.

"Now," he began, "if some mother in the audience will bring me her baby for a few moments, I will show you that Leo will hold the little one in his great mouth as tenderly as its mother can hold it in her arms. Trust me, some mother—your little one shall receive no harm whatever."

"We have only to wait a moment," declared Jenkins. "There is a young woman in the audience who furnishes the baby each afternoon; and Torrell, the showman, pays her ten dollars on the side after each performance."

And just at this moment the young woman arose from somewhere near the front and advanced, with the baby in her arms. I got one glimpse of them, and the next instant I was on my feet, though almost transfixed in my indignation. The woman was our Sally, and the baby was our boy.

I summoned strength enough to yell at Torrell, and the man who was not afraid of the whole African jungle cowered before me. And we—well, we are not requiring the services of a nurse any more. Also, we are seriously thinking of calling our boy Daniel, the little one having been delivered from the lions, you know.

(Copyright, Shorter Pub. Co.)

At the End of His Vacation

Drusilla Has Another Adventure

Sandman Story of How the Doll Visits a Farm, Falls Off a Wagon and Is Almost Eaten by a Cow.

By Mrs. F. A. Walker.

BOBBY JONES, the jack-in-the-box, noticed that Drusilla looked very pale when she was brought home from her visit to the farm, where she had gone with her mother, and he went to visit her grandparents, but it was not until the house was still and the lights were out that he learned the cause.

Bobby lifted the cover of his box and called "Drusilla, Drusilla," very softly. "What is it?" asked Drusilla, sitting up in her bed.

"What happened to you?" asked Bobby. "Did you have another adventure, Drusilla?"

"I should say I did, Bobby Jones," said Drusilla, rubbing her eyes. "and I guess you will have the nightmare when you hear about it."

"I went with my little mother to visit her grandmother and grandfather, and they live on a farm. Bobby Jones, did you ever see a cow?" asked Drusilla.

"No," answered Bobby. "Well, a cow has legs just the same as a horse, but it has horns, and a horse does not have horns."

"Can you blow them?" asked Bobby. "How what?" questioned Drusilla. "The horns," answered Bobby.

"Well, Bobby Jones, if you are not the most stupid fellow," said Drusilla. "I SHALL forget my adventure if I have to stop to explain everything to you. As I said, I went to the farm and for a few days I had a splendid time. That nursemaid did not go, and I went everywhere my little mother did."

"One day she took me with her on a load of hay. Her grandfather put us up on it, and it was ever so high. My little mother was frightened, I guess, for she let go of me and held on to her grandfather with both hands."

"I was all right for a while, and then I felt myself slipping down and down, and then I fell bump on the ground, right by a stone wall."

"I was not frightened at first, for I was sure that my little mother would miss me and come back to look for me. But she did not come, and after a while I heard the most awful noise right beside me. It sounded like moo, moo."

"I looked, and there stood a great big beast looking down at me. It had a dreadful nose and horns on its head, and when it opened its mouth I just thought I should faint."

"I tried to get up, but as I stepped it would, it put out the most awful tongue and licked my face. Oh, I shall never forget how rough it felt."

"Bobby Jones, that animal's tongue was as big as a—well, I don't know

"Now, how on earth can I ever get down to that, again!"

Upton, near Petersburg, one of the smallest parishes in England, possesses a mysterious tombstone of black marble which suits a damp cove in patches whenever rain is about to fall. The stone is regarded in the village as an infallible barometer.

It is reported in the newspapers of Transbaltic that new, exceedingly rich gold fields were recently discovered on lands belonging to the Czar in the region of Station Elivo, of the Transbaltic Railroad on the Bolshoi Urum River system.

The Servant Problem.

A Southern View of the Situation.

THE servant problem is perhaps easier for the women of the South than of other parts of the country, because we have at hand a race destined from the beginning of time for the loyalty and the beauty of service, and which, but for the interference of philanthropists who knew not what they did, might even yet be enjoying life, labor and the pursuit of happiness in that lowly estate into which it had long ago pleased God to call them.

Two generations of false teachings and of tragic aspiration towards a goal which has no existence in all the universe has wrought havoc with this child-like people and has made a sad breach between them and the Southern masters and mistresses who of all the world might still have understood and have loved them.

The servant type must be reconstructed now from difficult material, but if the old-time women of the south could take the untamed slaves from the African jungles and in the course of two or three generations who from them derive and loyalty which have passed into a proverb for devotion, surely we of a newer time may take the warped and mangled children of the same race and with the same individual effort and understanding and the same care and faith that our grandmothers used to take back into worthiness and contentment this God-created race of servants—Southern Women's Magazine.

Usually the man who brags about his good deeds does them by accident.
